SECTION 01

BUSINESS DEVELOPMENT & PROSPECTING

STAFFINGREVENUE
LAB

Find the right companies, uncover needs, and start high-converting conversations.

PROMPT 01 Cold Email Copywriting for Hiring Managers

Goal: Generate targeted cold outreach sequences to prospective clients hiring in your niche.

Act as an elite staffing business development strategist. Write a 3-touch cold email sequence (Initial, Follow-up, Final Value Add) targeted at **[Target Title, e.g., VP of Engineering]** in the **[Industry]** sector.

Focus on solving their primary pain point: **[Key Pain Point, e.g., long time-to-hire for Senior DevOps Engineers]**. Highlight our specialized network and ability to deliver vetted candidates within 48 hours. Keep the tone professional, direct, and concise (under 125 words per email). End with a low-friction call to action asking for a brief 5-minute discovery chat.

PROMPT 02 Uncovering MPC (Most Placeable Candidate) Pitch Angle

Goal: Frame a top-tier candidate to pitch directly to target decision-makers.

Act as a senior staffing account executive. I am marketing a high-caliber Most Placeable Candidate (MPC) with the following background: **[Insert Candidate Resume Highlights / Key Wins]**.

Write 3 distinct 1-paragraph "MPC Pitches" tailored for HR Directors and Hiring Managers in **[Target Industry]**:

- Pitch A: Focused on ROI and immediate revenue impact.
- Pitch B: Focused on technical problem-solving and efficiency gains.
- Pitch C: Focused on leadership and team-scaling capabilities.

Exclude identifying information. Frame all achievements with concrete metrics.

PROMPT 03 Reactivating Cold Client Accounts

Goal: Re-engage inactive client relationships with a high-value market offer.

Act as a staffing account manager. Draft an account re-engagement message to a former client (**[Client Company]**) who last placed an order with us on **[Last Contact Date]**.

Mention current market shifts in their sector: **[Insert Market Trend / Local Salary Data]**. Offer a complimentary Talent Market Analysis report covering local salary benchmarks, candidate availability, and hiring timelines for their core roles. Make the tone warm, consultative, and zero-pressure.

PROMPT 04 Reverse-Engineering Hiring Signals

Goal: Analyze open job descriptions from target prospects to identify hidden pain points before calling.

Act as a competitive intelligence specialist in recruiting. Analyze the following job posting from a target prospect:

[Paste Job Posting Here]

Provide:

1. Core Pain Points: What internal challenges or skill gaps are they urgently trying to solve?
2. Red Flags/Bottlenecks: Are there unrealistically broad skill requirements that suggest they are struggling to fill this role?
3. Cold Call Script Opening: Write a 3-sentence hook I can use when calling the Hiring Manager that positions our firm as the exact solution to their bottleneck.

SECTION 02

JOB ORDERS & INTAKE

STAFFINGREVENUE
LAB

Clarify roles, control requirements, and set hiring managers up for success.

PROMPT 05 Intake Call Question Generator

Goal: Extract critical, non-negotiable role requirements from hiring managers.

Act as an expert recruitment consultant. I am holding a 15-minute job order intake call with a hiring manager for a [Job Title] position.

Generate a structured list of 8 high-impact intake questions designed to:

1. Distinguish between absolute "must-haves" vs. "nice-to-haves."
2. Uncover the real performance metrics for success in the first 90 days.
3. Identify cultural dealbreakers and sell-points that will attract top 10% talent.
4. Establish concrete interview timeline steps and feedback turnarounds.

PROMPT 06 Salary & Market Expectation Alignment

Goal: Push back professionally when a client's budget is below market rates.

Act as an executive recruiter and salary negotiation expert. I have a client offering [Client Offered Salary] for a [Job Title], but current market data shows the true competitive range is [Market Rate Range].

Write a professional, data-backed email response explaining why this gap will result in poor candidate quality and extended vacancy costs. Offer 3 constructive options:

1. Increase the compensation package.
2. Adjust the skill requirements to fit the budget.
3. Offer flexible perks (e.g., remote work, signing bonus, equity).

PROMPT 07 Job Description Translation to Candidate Pitch

Goal: Convert dry corporate job specs into compelling marketing pitches.

Act as a recruitment copywriter. Transform the following corporate job description into a high-converting candidate opportunity overview:

[Paste Job Description Here]

Structure the output as follows:

- The Hook: Why this position matters and the big-picture impact.
 - What You'll Achieve: 3 key 90-day outcome-based goals instead of endless bulleted responsibilities.
 - Why Join Us: Key selling points regarding culture, growth, and autonomy.
- Keep it under 300 words and write in an engaging, candidate-centric tone.

PROMPT 08 Defining SLA & Exclusivity Commitments

Goal: Convert contingency orders into exclusive or engaged staffing agreements.

Act as a staffing agency director. Write a compelling proposal excerpt to [Client Name] advocating for an exclusive/engaged search model for their [Role Title] opening.

Detail the risks of multi-agency contingency searches (diluted candidate quality, candidate spamming, lower commitment) versus our Dedicated Search Agreement (priority candidate pipelines, guaranteed response SLAs, thorough vetting). Include a simple side-by-side comparison table.

SECTION 03

CANDIDATE SEARCH & QUALIFICATION

STAFFINGREVENUE
LAB

Source smarter, screen faster, and engage top passive talent.

PROMPT 09 Advanced Boolean Search String Builder

Goal: Generate complex Boolean operators for LinkedIn Recruiter, Google X-ray, and ATS systems.

Act as an expert talent sourcer. Generate optimized Boolean search strings for finding **[Job Title]** candidates based on the following criteria:

- Required Technical Skills: **[List Skills]**
- Industry Keywords: **[List Keywords]**
- Exclude Titles/Keywords: **[List Exclusions]**
- Target Locations: **[List Cities / Regions]**

Provide 3 variants:

1. LinkedIn Recruiter Search String.
2. Google X-Ray Search String (site:linkedin.com/in).
3. ATS Keyword Search String (broad/high-yield).

PROMPT 10 High-Response Passive Candidate Outreach

Goal: Draft personalized LinkedIn InMails or emails to employed candidates who aren't looking.

Act as a top-tier executive recruiter. Write a short, highly personalized InMail (under 100 words) to **[Candidate Name]**, who is currently working as a **[Current Role]**.

Reference their impressive background in **[Unique Project / Achievement]**. Briefly introduce a confidential, high-growth opportunity as a **[Target Opportunity]** without giving away proprietary client info. Make the message feel custom-written, warm, and focused on career progression rather than a job transaction.

PROMPT 11 Competency-Based Candidate Screening Script

Goal: Standardize candidate qualification calls to ensure top-tier submissions.

Act as a senior recruiter. Build a 15-minute telephone screening script for evaluating candidates applying for **[Job Title]**.

Include targeted, behavioral interview questions specifically testing for these 3 competencies: **[Insert 3 Competencies, e.g., Cross-Functional Collaboration, AWS Architecture, Agile Sprint Execution]**. Include scoring criteria for what constitutes a "Weak," "Acceptable," and "Exceptional" candidate answer for each question.

PROMPT 12 Candidate Counter-Offer Risk Assessment

Goal: Identify counter-offer vulnerability before submitting candidates to clients.

Act as a candidate manager. Generate 5 strategic, probing questions to ask a candidate during the initial screening call to evaluate their true resignation risk and likelihood of accepting a counter-offer from their current employer.

Focus on uncovering deep push/pull factors (motivation for change, internal promotion conversations, emotional attachment, and career growth bottlenecks).

SECTION 04

SUBMISSIONS & INTERVIEWING

STAFFINGREVENUE
LAB

Present with confidence and guide better interview conversations.

PROMPT 13 Executive Candidate Submission Summary

Goal: Create polished candidate write-ups that get hiring managers excited to interview.

Act as an executive recruiter. Synthesize the attached resume and screening notes into a 1-page Executive Submission Profile for a [Target Job Title] opening:

[Paste Resume & Screening Notes]

Format the output as follows:

- Executive Summary: 3-bullet snapshot of fit.
- Key Achievements Alignment: How their experience matches our client's top 3 requirements.
- Compensation & Availability: Target salary/rate, notice period, and work preferences.
- Recruiter Vetting Assessment: Brief note on soft skills and culture fit.

PROMPT 14 Client Interview Preparation Guide for Candidates

Goal: Prepare candidates to ace interviews with detailed briefing sheets.

Act as a candidate coach. Draft a comprehensive interview prep document for a candidate interviewing with [Company Name] for a [Role Title] position.

The interviewer is the [Interviewer Title]. Include:

1. Company Background & Mission Snapshot.
2. Likely Technical/Behavioral Questions they will ask and how to structure answers using the STAR method (Situation, Task, Action, Result).
3. 4 Strategic Questions the candidate should ask the interviewer at the end of the meeting to demonstrate high interest.

PROMPT 15 Debriefing Hiring Managers Post-Interview

Goal: Extract clear feedback and drive fast decision-making after client interviews.

Act as a senior account executive. Write an email to [Hiring Manager Name] immediately following their interview with [Candidate Name] for the [Role Title] position.

Prompt them for structured feedback on:

1. Overall Technical/Role Match (Scale 1-10).
2. Culture & Communication Fit.
3. Any Reservations or Gaps Identified.
4. Next Steps & Availability for final rounds or offer presentation.

Keep it concise to ensure rapid response times.

AI won't replace great recruiters. But recruiters who use AI will replace those who don't. | ► STAFFINGREVENUELAB.COM

PROMPT 16 Managing Candidate Post-Interview Feedback

Goal: Keep candidates warm, engaged, and honest about their interest levels.

Act as a candidate advocate. Write a post-interview debrief script to use on a call with [Candidate Name] after their interview with [Client Name].

The script should draw out candid answers regarding:

- Initial impressions of the team/culture.
- How well the actual responsibilities match what was described.
- Any lingering doubts or concerns.
- Updated ranking of this job relative to other interviews they are currently conducting.

SECTION 05

AI PRODUCTIVITY FOR RECRUITERS

STAFFINGREVENUE
LAB

Save time, create content, and streamline daily agency workflows.

PROMPT 17 LinkedIn Thought Leadership Post Generator

Goal: Build personal brand visibility on LinkedIn to attract inbound clients and candidates.

Act as a viral B2B LinkedIn creator in the recruitment space. Draft a compelling LinkedIn text post focused on **[Industry Insight / Topic]** within the **[Staffing Niche]** sector.

Structure:

- Strong Hook: First line designed to stop the scroll.
 - The Problem: Common hiring mistake or industry misconception.
 - The Solution: 3 actionable advice bullets based on **[Takeaway]**.
 - Engagement CTA: Ask a thought-provoking question to generate comment discussions.
- Use short sentences, line breaks for readability, and a professional yet conversational tone.

PROMPT 18 ATS Data Cleaning & Resume Parsing

Goal: Reformat messy candidate resumes into clean, standardized ATS database profiles.

Act as a recruitment operations data analyst. Parse the following raw resume text and output clean JSON/structured bullet points ready for ATS input:

[Paste Raw Resume Text]

Extract and standardize:

- Candidate Name & Contact Details
- Current & Past Job Titles with Exact Dates
- Core Technical Skills (Categorized by Domain)
- Highest Degree & Certifications
- Concise 2-Sentence Career Summary

PROMPT 19 Time-Block Schedule Optimizer for Recruiters

Goal: Organize a recruiter's daily calendar for maximum revenue-generating output.

Act as a high-performance staffing coach. Design an optimized 8-hour daily time-blocked schedule for a recruiter with the following goals: **[Insert Daily Goals, e.g., 50 cold calls, 3 intake calls, 2 candidate screens]**.

Group tasks by cognitive effort (e.g., deep-work sourcing blocks, high-energy calling windows, low-energy admin tasks). Include built-in buffer times for urgent client responses and ATS updates.

PROMPT 20 Objection Handling Matrix Generator

Goal: Train sales reps to handle common staffing client objections effortlessly.

Act as a staffing sales trainer. Provide a comprehensive objection-handling framework for the common client pushback: "[Insert Common Objection, e.g., 'We use internal HR', 'Your fees are too high']".

Structure the response into 3 tactical steps:

1. Acknowledge & Validate (Empathy).
2. Pivot & Reframe (Educate/Insight).
3. The Counter-Question (Gain control of conversation).

Provide 2 exact word-for-word response scripts (One Consultative, One Direct).

SECTION 06

ACCOUNT GROWTH & REVENUE EXPANSION

STAFFINGREVENUE
LAB

Expand relationships and grow long-term, higher-margin business.

PROMPT 21 Quarterly Business Review (QBR) Outline

Goal: Prepare high-value account reviews to lock in long-term exclusivity and volume.

Act as a Key Account Manager in staffing. Create a structured agenda and presentation slide outline for an upcoming Quarterly Business Review (QBR) with [Client Name].

Key data points to include:

- Historical Performance Metrics: [Insert Placements, Time-to-Fill, Retention Rate].
- Value Delivered: Cost savings, time saved, and talent quality benchmarking.
- Strategic Roadmap for Upcoming Quarter: Anticipated headcount needs, market trends, and talent pooling strategies.

Format as a slide-by-slide guide with bulleted talking points.

PROMPT 22 Cross-Selling Additional Staffing Verticals

Goal: Expand footprint in existing accounts from one division to another.

Act as a strategic sales director. Write an email to an existing contact at [Client Name] where we currently provide staffing for [Current Department Served].

Objective: Introduce our specialized capabilities in [Target Department to Cross-Sell]. Leverage our proven track record in their primary department to request a warm intro to the director of the target division. Emphasize master service agreements, streamlined billing, and proven culture fit alignment.

PROMPT 23 Direct Placement to Contract Conversion Pitch

Goal: Pitch flexible staffing models (Contract / Contract-to-Hire) to traditional perm clients.

Act as a staffing solutions architect. Draft a proposal framework advocating for a Contract-to-Hire or Managed Services model for [Client Name], who historically only uses direct-hire placement.

Highlight benefits:

1. Immediate headcount onboarding without lengthy approval cycles.
2. "Try before you buy" evaluation of performance and team fit.
3. Flexibility to manage project workload fluctuations without long-term overhead liabilities.

PROMPT 24 Client Fee Negotiation & Margin Defense

Goal: Hold firm on agency placement fees during client contract renewals.

Act as an agency owner negotiating contract renewal terms. The client is asking to reduce our placement fee from **[Current Fee %]** down to **[Client Requested Fee %]**.

Write a professional negotiation script and follow-up email that defends our pricing structure. Focus on our guarantee terms, specialized vetting process, passive talent network quality, and the hidden costs of low-fee, high-churn placements. Offer a compromise that protects margin (e.g., volume tiers or extended payment terms instead of flat rate cuts).

PROMPT 25 Systematic Referral Request Engine

Goal: Generate ongoing client and candidate referrals from successful placements.

Act as a candidate relations specialist. Draft two distinct referral request scripts:

1. Candidate Referral Request: Sent to **[Placed Candidate Name]** **[Days Post-Placement]** after a successful start in their role as **[Role Placed]**. Offer incentives if applicable and ask for introductions to high-performing peers.
2. Client Referral Request: Sent to **[Hiring Manager Name]** after a smooth 90-day onboarding period, asking for introductions to peers in other companies or business networks who are scaling their teams.
